## OBSERVATION INFORMATION

| Species | Date(s) Observed | Spawning | Rearing | Migration | Anadromous |
|---------|------------------|----------|---------|-----------|------------|
| coho    | 10/10/98         |          | ✓       |           | ✓          |
|         |                  |          |         |           |            |
|         |                  |          |         |           |            |
|         |                  |          |         |           |            |

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: set 2 minnow traps, salmon egg bait, 24 hr soak, below debris/falls barrier - above too steep & shallow to set traps. Trap #1: 1 coho, 1 dv, 6 sculpin. trap #2: 9 coho, 1 dv. Stream below barrier sandy, low gradient, 2-3 ft wide. Fry

Name of Observer (please print) Peter Branson, FOW Tech III, Dianne Cassidy, Volunteer  
 Date: 10/12/98 Signature: Peter Branson  
 Address: P.O. Box 2073  
Wrangell, AK 99429

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.

# WRANGELL ISLAND

Accross camp #1 10-9-98

pulled 10-10-98

set 2 traps one near  
mouth - other below  
barrier falls/debris jam  
- not enough water to set  
above - not likely to find  
fish any way

#1: (1 coho) 1 DV, 6 scalpins

#2: (9 coho) 1 DV
